### 5. Fire-fighting measures

#### Extinguishing media

**Suitable extinguishing media** The product is not flammable. Use fire-extinguishing media suitable for the surrounding fire. Extinguish with the following media: Water spray, foam, dry powder or carbon dioxide.

#### Special hazards arising from the substance or mixture

**Flammability Class** No Uniform Fire Code noted.

#### Advice for firefighters

**Protective actions during firefighting** As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

**Special protective equipment for firefighters** Wear self-contained breathing apparatus as combustion may produce hazardous fumes.

### 6. Accidental release measures

#### Methods and material for containment and cleaning up

**Methods for cleaning up** If dust is generated, use appropriate respiratory protection. Vacuum or sweep up material and place in a disposal container. Avoid generation and spreading of dust. Large Spillages: Wear suitable protective equipment, including gloves, goggles/face shield, respirator, boots, clothing or apron, as appropriate. Collect and place in suitable waste disposal containers and seal securely. Label the containers containing waste and contaminated materials and remove from the area as soon as possible. Flush contaminated area with plenty of water. Avoid runoff into storm sewers and ditches which lead to waterways.

### 7. Handling and storage

#### Precautions for safe handling

**Usage precautions** Minimize dust generation and accumulation. Do not breathe dust. Avoid contact with skin and eyes. Wash contaminated skin thoroughly after handling.

#### Conditions for safe storage, including any incompatibilities

**Storage precautions** Store dry at ambient temperature away from food and beverages, excessive heat or flame sources (furnace, kilns, boilers etc.). Store away from substances subject to catalytic decomposition by dust, e.g. peroxides Store at temperatures not exceeding 55°C/130°F.

### 8. Exposure Controls/personal protection

**Ingredient comments** Although no exposure limit has been established by OSHA for this product, the limit for nuisance particulates should be followed: OSHA 8-hr TWA 10mg/m<sup>3</sup> Total Dust 5 mg/m<sup>3</sup> respirable dust.
